**OCTOBER 2003 STATUS OF FORCES SURVEY
OF DoD CIVILIANS:
TABULATIONS OF RESPONSES**

Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *October 2003 Status of Forces Survey (SOFS) of DoD Civilians*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The SOFS program is conducted under the leadership of Anita Lancaster, Assistant Director for Program Management, and Timothy Elig, Chief of the Survey and Program Evaluation Division.

Policy officials contributing to the development of this survey included: Ellen Tunstall, Civilian Personnel Policy; and Lizanne Stewman, John Ehrbar, Billy Speed, Frank Hushek, and Teresa Dunnington, Civilian Personnel Management Service.

DMDC's Program Evaluation Branch, under the guidance of Eric Wetzel, Branch Chief, is responsible for the development of questionnaires used in the SOFS program. The lead developer on this survey was Marcus Strother.

DMDC's Survey Technology Branch, under the guidance of James Caplan, Branch Chief, is responsible for data collection and preparation for the SOFS program. The lead analyst on this survey was Sally Mohamed from Systems Research and Applications International (SRA), Inc., who was supported by Julisara Matthew, a Consortium Research Fellow. Data Recognition Corporation (DRC) performed data collection and editing.

DMDC's Personnel Survey Branch, under the guidance of Barbara Jane George, Branch Chief, is responsible for sampling and weighting methods used in the SOFS program. Richard Riemer standardized the sampling and weighting methods that allow repeated surveys of DoD civilians. Kent Kroeger applied those methods to this survey. The sample design was optimized using software developed for DMDC by RTI International. Bob Hamilton, Chief of DMDC's Programming Branch, and Carole Massey and Susan Reinhold, from his staff, provided programming support for the sampling and weighting tasks.

Mary Padilla and others from SRA created the Survey Reporting Tool that formatted and assembled this tabulation volume from analyses produced by SAS[®] macros developed by Richard Reimer from the Personnel Survey Branch. Deepika Batra from SRA and Regan Klein a Consortium Research Fellow completed quality control for this tabulation volume.

OCTOBER 2003 STATUS OF FORCES SURVEY OF DoD CIVILIANS: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Human Resources Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), consists of both Web-based and paper-and-pencil surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness [USD(P&R)]. These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community—active, Reserve, and civilian employees—on a wide range of personnel issues. The Web-based survey program, known as the *Status of Forces Surveys* (SOFS), provides timely data on active, Reserve, and civilian members. There are nine Web surveys a year, with three cross-sectional samples of each population. The paper-and-pencil surveys are used to obtain data on sensitive topics (e.g., sexual harassment) and from populations who have limited Internet access (e.g., spouses of active and Reserve members).

This report contains tabulations of responses from the first SOFS Web survey of DoD civilians conducted September 25 to November 20, 2003. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,¹ and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.²

Survey Content

The overarching topics for the *October 2003 Status of Forces Survey of DoD Civilians* were satisfaction and retention. The survey was subdivided into questions covering the following 11 areas:

1. *Background*—Component, status (permanent/non-permanent), pay plan and grade, gender, race/ethnicity, tenure, education, retirement eligibility, disability, veteran status, supervisor/manager, and location.
2. *Overall Satisfaction and Retention*—Satisfaction with global dimensions of the job, overall satisfaction, and likelihood to continue to work for the DoD.
3. *TEMPO, Readiness, and Stress*—Relocation, days worked overtime, time away from permanent duty station, the impact of time away on career intentions, individual and unit preparedness, level of stress in work and personal life.

¹ Details on survey methodology are reported by Kroeger and Riemer (In preparation).

² Refer to DMDC (In preparation) to view a screen-shot version of the survey as it appeared on the Web.

4. *Detailed Satisfaction With Your Organization*—Satisfaction with individual aspects of the organization, along with an overall assessment.
5. *Detailed Job Satisfaction*—Satisfaction with individual aspects of the job, along with an overall assessment.
6. *Detailed Satisfaction With Pay and Benefits*—Satisfaction with individual types of pay and benefits, along with an overall assessment and a perceived comparability to non-federal organizations.
7. *Satisfaction With Quality of Work Life and Family Programs*—Satisfaction with individual programs, management support for programs, and an overall assessment.
8. *Personnel Services*—Satisfaction with individual services, along with an overall assessment.
9. *Strategic Alignment and Competencies*—Level of agreement with a series of statements pertaining to work unit's strategic position.
10. *Commitment and Career Intent*—Level of commitment, along with details on career plans and willingness to recommend government/military service.
11. *Personnel Actions*—Details on hiring and terminating employees, to include length of time and level of satisfaction with the hiring process.

Population and Reporting Categories

The target population for all SOFS of DoD Civilians is defined as DoD appropriated fund civilian employees [including Senior Executive Service (SES)], to include employees of the Department of the Army, Department of the Navy (including employees working at Marine Corps locations), Department of the Air Force, and civilian employees working at all other DoD agencies and activities who have either full-time, part-time, or intermittent work schedules, with at least 6 months tenure at the time the questionnaire is first available on the Web.

Results are presented for the total population, and also for a variety of reporting categories. Respondents are assigned to reporting categories based on their answers to survey questions. If a respondent does not answer a question, data are imputed using the information, if available, in DMDC's Civilian Personnel Master Edit File. Exceptions to this procedure include those respondents assigned to groups within the *Supervisor/Manager* and *Veteran* reporting categories. These categories are determined solely by responses to survey questions, since personnel record data were not available to make specific distinctions. In addition, assignment to *Occupational Group* (see below) was done exclusively from personnel record data.

Survey results are tabulated by component, pay plan/grade, occupational group, supervisor/manager, schedule/location, type of appointment, bargaining unit,

disability, veteran/preference, retirement plan, retirement eligibility, length of service, age, gender, race/ethnicity, and education. Additional background information on reporting categories follow:

- *Component*—Groups include the three Military Departments, along with DoD Agencies.
- *Occupational Groups* —*Professional* are white collar occupations that require knowledge in a field of science or learning characteristically acquired through education or training equivalent to a bachelor's degree or higher with major study in a specialized field. *Administrative* are white collar occupations that involve the application of a substantial body of knowledge of principles, concepts, and practices applicable to one or more fields of administration or management. *Technical* are white collar occupations that involve work typically associated with and supportive of a professional or administrative field that involves extensive practical knowledge, gained through on-the-job experience and/or specific training less than that represented by college graduation. *Clerical* are white collar occupations that involve structured work in support of office, business, or fiscal operations; performed in accordance with established policies, or techniques; and requiring training, experience, or working knowledge related to the tasks to be performed. *Other White Collar* are white collar occupations that cannot be related to the above *Professional*, *Administrative*, *Technical*, or *Clerical* categories. *Blue Collar* occupations comprise the trades, crafts, and manual labor (unskilled, semiskilled, and skilled), including supervisory positions entailing trade, craft, or laboring experience and knowledge as the paramount requirements. *Scientist* and *Engineers* are specific occupations under the *Professional* category that are often of particular interest.
- *Pay Plan/Grade*—The subgroup of *White Collar Total* include General Schedule (GS) and related pay plans (e.g., General Manager [GM] and General Government [GG], and comparable pay bands), at grade levels *GS 1 to 4*, *GS 5 to 8*, *GS 9 to 12*, *GS/GM 13 to 15*, and *SES* pay plan. *Blue Collar Total* includes subgroups *Wage Grade (WG)*, *Wage Leader (WL)*, and *Wage Supervisor (WS)* at the *WG 1 to 5*, *WG 6 to 9*, *WG 10 to 15*, and *WS/WL 1 to 19* grade levels.
- *Supervisor/Manager*—*Supervisor* refers to first-line supervisors who do not supervise other supervisors; typically those who are responsible for employees' performance appraisals and approval of leave. *Manager* refers to those in management positions who typically supervise one or more supervisors. *Wage Leader* refers to those who lead three or more workers to (a) accomplish trades and labor work or (b) train them in the non-supervisory work of a trades and laboring occupation. *Wage Supervisor* refers to supervisors who exercise technical and administrative supervision over subordinate workers in accomplishing trades and labor work. *All Others* are persons who are not supervisors or managers.

- *Schedule/Location*—Work schedule is collapsed into two groups: *Full-Time* and *Other Than Full-Time*. *Other Than Full-Time* includes all persons with part-time and intermittent work schedules. Locations are defined as locality pay areas where respondents work. These are collapsed into *CONUS* (within the contiguous 48 states including the District of Columbia) and *OCONUS* (outside the contiguous 48 states).
- *Type of Appointment*—*Permanent* employees are those who have completed their probationary period for initial employment while *Non-Permanent* employees are still serving a probationary period.
- *Bargaining Unit*—*Not in Bargaining Unit* are employees who are not members of a collective bargaining group, while *In Bargaining Unit* are members of such groups.
- *Disability*—Disability status is collapsed into two groups: *Disability* and *No Disability*. Subgroups under *Disability* include *Targeted Disability* and *Other Disability*. Targeted disabilities are disabilities “targeted” for emphasis in affirmative action planning, such as deafness, blindness, missing extremities, etc. Other disabilities include disabilities that are not readily apparent, such as asthma, arthritis, chronic fatigue syndrome, etc.
- *Veteran/Preference*—While the *Veteran* and *Non-Veteran* groups are exclusive, a limited number of non-veterans will be included in the preference subgroups under *Veteran* due to their being eligible to receive a preference (e.g., widowed spouses of career military members who receive veteran’s preference based on spouse’s service).
- *Retirement Plan*—*CSRS* are employees who are enrolled in the Civil Service Retirement System, *FERS* are employees who are enrolled in Federal Employee Retirement System, and *Other Plan* includes all other employees.
- *Retirement Eligibility*—*Not Eligible* includes persons who are not yet eligible to retire. *Optional Eligible* includes persons who can retire under either FERS (if born before 1948) or CSRS, if they are: 1) 55-59 years of age and have at least 30 years of credible service, or 2) 60-61 years of age and have 20 years of credible service, or 3) 62 years of age or older and have at least 5 years of credible service. Under FERS law only, federal personnel born after 1948 can retire if they meet the minimum age requirements and have 10 or more years of credible service. Hazardous duty employees (i.e., fire fighters, law enforcers) can retire voluntarily at age 50 with 20 years of credible FERS or CSRS service. *Discontinued Service Eligible* includes persons who can retire under either FERS or CSRS if they are: 1) 50-54 years of age and have at least 20 years of credible service, or 2) 55-59 years of age and have between 20-29 years of credible service, or 3) 49 years of age or less and have at least 25 years of credible service.

- *Length of Service*—This category refers to length of service working for the Federal government. An individual's length of service is reported as falling into one of five categories.
- *Age*—This is the individual's age. An individual's age is reported as falling into one of five categories.
- *Gender*—This category is self-explanatory.
- *Race/Ethnicity*—Self-report questions are consistent with requirements of the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). *Total Minority* includes all persons marking one or more of the races other than White (even if they also marked White), and/or marking that they are Spanish/Hispanic/Latino. *Non-Hispanic Black* includes persons marking only Black or African American and not reporting being Spanish/Hispanic/Latino. *Hispanic* includes anyone reporting being Spanish/Hispanic/Latino, regardless of how they answered the question on race. *Non-Hispanic API* includes anyone reporting being Asian or Native Hawaiian/Other Pacific Islander on the race question and not reporting being Spanish/Hispanic/Latino.
- *Education*—The group *No College* includes anyone without some college credit. *Some College* includes those with some college credit, including a 2-year degree, but does not include those with a 4-year degree. *Four-year Degree* includes those with a 4-year degree and those with some graduate school, but no graduate or professional degree. *Graduate/Professional Degree* includes those with masters, doctorates, and first professional degrees.

Survey Methodology

The survey administration process began on September 25, 2003, with the mailout of notification letters to sample members. This notification letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. Data were collected on the Web between October 9 and November 20, 2003.

Single stage, nonproportional stratified random sampling³ procedures were employed to ensure adequate sample sizes for the reporting categories. The sample consisted of 48,856 individuals drawn from the sample frame constructed from DMDC's February 2003 Civilian Personnel Master Edit File. Members of the sample became ineligible if they indicated in the survey or by other contact (such as telephone calls or e-mails to the data collection contractor) that they were not in employed by the DoD or one of its components as of the first day of the Web survey, October 9, 2003 (1% of sample).

Completed surveys (defined as 50% or more of the questions asked of all participants are answered) were received from 26,981 eligible respondents. The overall weighted response rate for eligibles, corrected for nonproportional sampling, was 57%. Data were weighted to reflect the population of interest. These weights reflect (1) the probability of selection, (2) a nonresponse adjustment factor to minimize bias arising from differential response rates among demographic subgroups, and (3) a poststratification factor to force the response-adjusted weights to sum to the counts of the target population as of the month the sample was drawn and to provide additional nonresponse adjustments.

Table 1 shows the number of respondents and the portion of total respondents in each reporting group. Also shown are the estimated number of members and the portion of total members in each reporting group. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled as well as differences in response rates.

Tabulation Procedures

Tabulations for each question from the survey are shown on a set of facing pages. The text of the question and response options are shown at the top of the even-numbered page, with only the question repeated on the odd-numbered page. To compress the width of columns in the tables, the response options are shown with a number or with DNA (i.e., *Does not apply*) and then that number or DNA is used as the

³ In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by gender and component (all male Army personnel in one group, all female Navy personnel in another, etc.). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses.

column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding.

Where an item lends itself to presentation as an average, that average is also shown as a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups that differ from other similarly defined groups. Where a true response continuum is available (e.g., number of years of service with the Federal government or days worked overtime), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response like yes/no, only one percentage is presented. In this case, the histogram represents that percentage.

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it is reflecting item nonresponse, and the table includes a note that “Percent responding are Civilians who answered the question.”

Not all questions will apply to every respondent. Where possible, the Web survey is programmed to allow respondents to skip over questions that do not apply to them. For example, Q74 (How important is each of the following as a reason for your plans to look for a new job?) only applies to those who marked in Q73 that they planned to look for another job in the coming year. The notation to this question indicates the “Percent responding are civilian employees who answered the question and who are planning to look for another job (Q73).”

The survey does not always allow respondents to skip questions that do not apply to them. In the tabulations, *Does not Apply* responses are typically included in the percentages in the *Percent Responding* column. For example, Q50.c asked employees to indicate their level of satisfaction with “Special pays (e.g., incentives, bonuses, etc.).” Survey participants could indicate that the question did not apply.

Combining Information From Multiple Items

Tabulations in this volume generally present data for individual survey questions, but there are some exceptions:

- Responses to questions 4 – 10 are combined into a single set of tabulations (Q5) that assign survey participants to 1 of 10 categories of pay plans/grades.
- Race (Q14) is reported in a single set of tabulations. The tabulations show the percentage of those who responded that they were White, Black, American Indian/Alaska Native, Asian, and/or Native Hawaiian/Other Pacific

Islander. Respondents who indicated more than one race are also shown in the percentage of “More than one race marked.” For example, if a respondent indicated they were Asian and White, they were counted in the percentage as “Asian,” “White,” and “More than one race marked.”

Margins of Error

The complex sample design required weighting to produce population estimates such as percentages.⁴ This also means that the typical rules of thumb for interpreting how good an estimate is, such as the number of respondents, will overstate the reliability of the estimate. For this report, variance estimates were calculated using SAS[®] PROC SURVEYMEANS.

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters, such as percentages or means, and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (Max ME) for the percentages in the row is shown. That is, the margin of error is calculated for each response option percentage and the largest of these is printed. For each average shown in these tabulations, the corresponding margin of error is printed.

Estimates may be unstable based on a small number of observations or relatively large variance in the data or weights. Particularly unstable estimates are suppressed or annotated in these tabulations. The following rules are used:

- “0” indicates that no one in any reporting group selected the response option,
- “NR” indicates the estimate is Not Reportable because it was based on fewer than 30 respondents or the relative standard error was high,
- “NA” indicates the response option was Not Applicable for the reporting category because it was not selected by any respondent in that category,
- no Max ME is printed when all percentages in the row are shown as “NR,”
- no margin of error is printed for an average when it is shown as “NR.”

PRIVACY ACT STATEMENT FOR STATUS OF FORCES SURVEYS

In accordance with the Privacy Act, this notice informs you of the purpose of the Status of Forces Surveys and how the findings of these surveys will be used. Please read it carefully.

AUTHORITY: 10 United States Code, Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in this survey will be used to report attitudes and perceptions about personnel programs and policies. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Office of the Secretary of Defense, each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. In no case will the data be reported or used for identifiable individuals.

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. There is no penalty if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by persons engaged in, and for purposes of, the survey research.

SECURITY PROTECTION ADVISORY

WEB SITE PRIVACY: The Department of Defense and Data Recognition Corporation will collect no personal information about you when you visit this Web site unless you choose to provide it yourself. If you supply us with personal information, it will be treated as confidential.

In addition, our system does not enable "cookies," which are files placed on your computer's hard drive in order to monitor your use of the site or the Web. For more information about your privacy rights, please read the Privacy Act Notice at the start of the survey.

This Web site does gather and store certain data from your visit. This non-personal information makes the site helpful to you by recognizing the types of technology you use. The data collected appear below:

1. Your Internet host or domain (for example, "youragency.mil" if you connect from a military domain; "yourschool.edu" if you connect from a university's domain; or "yourcompany.com" if you use a private Internet access account). Other examples of domains are compuserve.com and aol.com.
2. Your Internet Protocol (IP) address (for example, www.compuserve.com, www.aol.com, 122.3.55.34). Depending on your Internet service provider, IP addresses may identify your computer; in other cases, they identify no more than your Internet service provider (such as AOL or Earthlink). This is stored for troubleshooting technical problems.
3. The type and version of the browser and operating system you use to access our site.
4. The date and time you access this site.
5. The pages you visit.

None of this information will be revealed publicly or used to identify you.

ABOUT THIS QUESTIONNAIRE

What is the Status of Forces Survey (SOFS) Program?

- SOFS is a Department of Defense (DoD) personnel survey program that features short, Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness.
- These surveys enable the DoD on a regular basis to quickly and accurately gauge the attitudes and opinions of the entire DoD community – active duty or Reserve component members and spouses, and DoD civilian employees – on the full range of personnel issues.

Why should I participate?

- This is your chance to be heard on issues that directly affect you.
- Some examples of topics include: quality of life, retention, retirement, and satisfaction.
- Your answers on a survey make a difference. For example, results from previous surveys have played an important role in deliberations on pay rate adjustments, cost of living and housing allowances, and morale and retention programs.

How do I participate?

- To participate, you are asked to (1) read the Privacy Act Statement if you choose, (2) verify contact information, and (3) provide us e-mail address(es) so we can notify you when the survey is ready. We would appreciate your doing this step now. To participate now, click the Continue Now button.

How did you pick me?

- We use well-established, scientific procedures to select a sample that represents the Defense community.
- This sampling procedure sets up clusters of people based on combinations of demographic characteristics (e.g., Service, rank, etc.).
- You were selected at random from one of these clusters of people.

Why am I being asked to use the Web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- When the SOFS program was established, a .net domain was chosen for two reasons.
 1. The SOFS operations contractor, Data Recognition Corp., consolidates both Web and paper survey data for DoD and it is more efficient for the Government to collect it at their single site.
 2. This makes it as easy as possible for everyone to access the survey, even from a non-government computer.

Do I have to take the survey in one sitting?

- No, it is not necessary to complete the survey in one sitting. Just click the "Save and Return Later" button and the work you completed will be saved.
- When you return to the survey, merely enter your Ticket Number again. Entering your Ticket Number will bring you to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- The Defense Manpower Data Center (DMDC) traditionally reports not only overall results, but also results by race/ethnicity, paygrade, etc.
- To complete these analyses, we must ask respondents for this type of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel (e.g., enlisted/officer, males/females) so that no groups are overlooked.
- Sensitive questions are sometimes also asked about topics like personal finances. Such information will be used to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- Only group statistics will be reported. Individual data will not be reported.

Will I ever see the results of the survey?

- This survey's briefings and reports will be posted on the following Website:
<http://www.dmdc.osd.mil/surveys/>
- When you complete a survey, you can request to be notified by e-mail when results are posted on the Web.

What is DMDC?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in DoD. It also conducts Joint-Service surveys and operates the Status of Forces Survey Program for the DoD. To learn more, visit the DMDC web site:
<http://www.dmdc.osd.mil/>

How do I know this is an official, approved DoD survey?

- In accordance with DoD Directive 8910.1, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for the SOFS is DD-P&R(AR)2145, expiring 05/23/05.

What is ADSurvey@osd.pentagon.mil?

- The official e-mail address for communicating with active duty members about Status of Forces Surveys. The name is short for Active-Duty Survey.

How to Contact Us

- If you have questions or concerns about this survey, you have three ways to contact the Survey Operations Center:

- Call 1-800-881-5307
